BANGLADESH CONSTRUCTION MARKET - ANALYSIS

The Bangladesh Construction Market size is estimated at USD 32.33 billion in 2024, and is expected to reach USD 44.13 billion by 2029, growing at a CAGR of 6.42% during the forecast period (2024-2029).

Infrastructure development (both large-scale and small-scale) and urbanization are the main drivers of the construction sector, which accounts for nearly 8% of GDP growth and 4% of GDP growth, respectively. This growth in demand for raw materials increases the demand for steel and cement products.

Infrastructure construction is projected to be in good shape over the next 5 years as the government aims to increase investment in transportation infrastructure through PPPs to boost the country's economy. To meet the growing electricity demand, the country will invest in power infrastructure to support forecast-period generation in the power and utility sectors. The country's electricity demand is estimated to be 40 GW by 2030, and the government plans to invest USD 70 billion in this sector by 2035.

In addition, Bangladesh is set to inaugurate three infrastructure projects in September to be funded by India. The projects are a 660 MW super thermal power plant, a 2nd unit of Rampal Power Plant in southwest Bangladesh, as well as two railway lines, the 65 km Khulna - Mongla Port railway link and the 65 km Akhaura - Agartala railway link.

ABOUT CONMAC BANGLADESH

Conmac 2024 Bangladesh will be the second country in SAARC where ConMac international series will be organised by CII, the organisers of celebrated events in construction sector like Excon India and ConMac Nepal.

Equipment's manufactured in India are exported to SAARC, parts of Asia, Middle east and Africa. The event will be an effective marketing platform for India to showcase the latest range of construction equipment's available for rapid acceleration of infrastructure in Bangladesh.

It will be a good opportunity for the Government of Bangladesh to showcase the opportunities available in the Country for companies in the Construction Equipment / Component Space to explore options for setting-up Branch Office, Distributor and Dealer base in Bangladesh to cater to the increasing demand for Construction Equipment and Spares.

EVENT HIGHLIGHTS

3 DAY

Exhibition on Construction Equipment and Technology

150+

Exhibitors

5,000+

Business Visitors

50,000 SQ.MTS

of Exhibition Display Area

Finance Pavilion

Special promotions amongst Government agencies, Funding organisations, etc.

EXHIBITOR PROFILE*

- Aggregate Equipment / Asphalt Equipment
- Attachments / Compactors / Block Making Machines
- Components / Accessories
- Compressors / Generators / Tower Lights
- Concrete Making Equipment, Construction Equipment & Crushers
- Drill & Power Tools
- Earth Moving Equipments
- Electronics / Controls / Instrumentation
- Hydraulics and Pneumatics
- Information Technology
- Material Handling Equipment
- Piling Equipment, Publications, Pumps, Rollers
- Road Making & Marking equipments.
- Service Leasing, Financing & Equipment Rentals

VISITOR PROFILE*

- Contractors, Government, Center, State, Municipalities Officials
- Defence & Railways
- Leasing & Finance Companies
- Machinery & Equipment Dealers
- Construction Companies
- Equipment Rental Companies
- Project Developers
- Urban Infrastructure Developers
- Public sector companies
- Buyers of Construction Equipments & Technologies
- Sourcing of Components & Aggregates.

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Livelihood, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
